

HAMMER TACKERS

Sometimes the task at hand involves quick fastening of materials with a large number of staples. This is where our hammer tackers represent the best choice. At Rapid we've amassed a wealth of experience producing some of the market's best, high quality hammer tackers. From our Swedish production facility, our range brings every user a wealth of smart, helpful features, such as bounce-back technology that makes the hammer bounce back thanks to the recoil. This significantly reduces strain on the user since it means less physical exertion. Additionally, an ergonomic handle contributes to smoother operation making any task easier and increasing working efficiency.

Suitable for: building materials such as roofing felt, moisture barriers, insulation plastic and wind protection.

R311

140 Staple
6–12 mm

Description	Art. No.	EAN Code	Units
Box	5000004	4051661000058	10
